Ottawa, July 2.—The new Meighen government was de

ated by a majority of one in division this morning. Disso-tion is expected today.

The defeat of the Meighen government came on the Robb solution that the Meighen acting ministers held their offices

interaily.

By a single vole, she't that each in error, the Meightin government went down to defail in the Hoise of Common should be a single vole of the Hoise of Common should be a single vole of the Hoise of Common should be a single vole of the Hoise was 50 to 25. Immediately that the resulthed been an house was 50 to 25. Immediately that the resulthed been as announced. The Helf of Corporative, Nolson, Many, rose and announced with extreme regret! His he had voted, although a parted with D. M. Kinnedy, Progressive, Piane, Biver.

James of the Hoise of th

ance of pairs, he katact.

The motion before the house moved by the Hon. J. A.
Robb and seconded by the Hon. W. R. Motherwell, declared
that the actions in the house of the acting cabinet ministers
were a violation and an infringement of the privileges of the
commons. It declared that the acting ministers had no right commons. It declared that the acting ministers had no right to sit in the house and should have wacated their seals if they held office legally as administration of various, departments assigned to them. If they did not hold such offices legally they had no right to control the business of the government

and as for supply.

Amountement of the result of the vote followed closely by Mr. Bird's statement, 'texted pandemonium in the Chamber In the midst of it, Sir Henry Drayton, acting leader of the house moved adjournment. Time was necessary for consideration of the situation which had developed as a result of the "accident", he stated.

Amid great applause from Liberal benches, Rt. Hon. W. (L. Mackenzie King said that in view of the evening's vote, he would assume that Premier Meighen would advise the Government of the contract o nor-General that "this government has no right to exist".

Sir Henry retorted that the previous vote of consure

the Liberal opposition gave the government a majority of ten If Mr. Meighen waited upon the Governor-General he could point out that the government was nine votes to the good

point out that the government was nine votes to the good.

Mr. Speaker was on his feet trying to make himself heard
above the din, to ask if the house would adopt Sir Henry's
motion for adjournment. Members in all parts of the chamber
were on their feet, some shouling and others throwing torn were on their ieet, some shouling and others throwing torn paper into the air. At last Mr. Speaker succeeded in raising his voice above the did and put the motion for adjournment. Deputy Sergeant at Arms, who had been waiting for some time until the hubble subsided, picked, up the mace and ex-corted the Speaket from the Chamber. For some minutes the great hall resounded with cheering and exultant congratu-lations of Libral members who mixed in groups to discuss the dramatic close of the day's business.

A LITTLE Polish boy, without telling his parents changed his name the first day in a Canadian school. He had a fine Polish name, but he was in Canada, in a new world, and he wanted a name that would symbolize his great change.

European women, upon coming to Canada, quickly revolutionize the manner of things they buy for their tables and their homes. An authority has estimated that foreign-born women ask for goods by their advertised names within two weeks after they have begun housekeeping in Canada.

They are quick to sense that in the new world the good things are advertised, and that unknown goods in unknown stores are likely to be of unsatisfactory quality.

As the European woman quickly learns, Canadian advertising is for the buyer's protection.

An advertised product bears a proud name It has a reputation to uphold.

Halifax, N. S., July 7.—A radio message to C. H. Harvey
stated that the Steamer Bailenas was ashore on the north stated that the steamer Ballenas was abore on the north tip of Seal Baland, near Race Point, and badly in need of assistance. The Steamer grounded at 6.07 eastern standard time this morning. The message said the steamer was rapidly filling. The Government steamer Dollard was standing by at Yarmouth.

MAGED BY EARTH SHOCK
Vienna, July 7.—An enrhquake today shook Styria,
Lower Austria, and caused heavy damage in the town of
Merzachista, near Mont Semmering. Repeated,
shocks caused terror among the population, but there was
no loss of life. The Rathaus, a shool, a brewery and the

ALEMITES LOST STRENUOUS TILT TO FAST DELOROS

Score Was 6-4 and Enter tainment Was Well Worth Seeing

The Alemits lost a mighty brugh game to R. A. Eliot's Deloro team at the circus ground yesterday after noon by the score of 6-4. The north moon by the score of G-4. The nor erners refuse to be stopped as have now got a strangle hold on the road to pennantylle in the Bay Quinte League. The locals made brilliant effort, to horn in on the brilliant effort, to horn in on onward march but the smelters g ed an early lead and the Alen failed to catch up. The win chalked up five runs in the ir frame but were held to one tally during the remainder of

Many new angles have grown out of these discussion, the binam could pixes of the city of the ci

game.

Belleville have shown that they are very weak finishers in at least four games, all of which they should have undoubtedly won.

"Wicky" Ross will be out of the game for some time with his injured analis and his loss to the team will be a serious one as Ross is one of the leading outflid-ers in the circuit, although young Palmer displayed nice form when he went to centre field in "Wicky's" place.

Alemites and A-1 clash in a city soft-ball game at the arm-

rea tonguir.

The Nationals play in Peterboro tomorrow and must win to keep on even footing with "Share" Johnston's lade. The full team will go along.

Then girl soft-hall reams are TIEB thing in the eye of those who watch the closely-fought battles. The officers of the two leagues are working hard in an effort to put the project across and cartainly they are succeeding.

LITTERATEURS AT WORK

The popular impression that autow-ship is an easy way of earning a livelibood is corrected by the atate-ment that Balzac worked filters hours per day, and for many years his in-come was no more than sufficient to barely meet expenses. The like story try craftsmen whose literary craftsmen whose names are today familiar to myriads of readers. They had talent. In some instanced their gifts amounted to positive genius. But the road to success was by no means smooth and facile. Only so short justice and indicating the shor did they attain their style and repute. Supreme Performance Sensational Values

Today's Chrysler "70"—changed in no way except new lower prices which save you \$65 to \$410—is more than ever the car of world-wide preference. We knew that the Chrysler "70" would sweep its way to pre-eminence, but we did not anticipate the tide of public favor which makes possible these sensational values.

Little wooder that none of its more than a hundre thousand owners who have enjoyed uninterrupte satisfaction from their Chrysler "10's" for thousand upon thousands of miles, will ever willingly go but to the less modern type of cars.

We are eager to prove to you why the Chrysler "70" with its savings of \$65 to \$410—the identical car whoseperformance and endurance have won such universal preference—is beyond all doubt the preferred motor car investment at these lower prices in its class.

Dependability and long life are essential elements of motor car satisfaction.

Whatever other characteristics a car may have, whatever refinements may be added must have their foundation upon these basic qualities,

The basic quality of the Ford has been demonstrated in the hands of over twelve million owners in all parts of the world. These owners have chosen Fords because they know that there is no substitute for what the Ford offers.

The Tudor sedan is a noteworthy example. It is a car of abundant comfort, of unlimited utility, ideally suited to family use, in town or country at all seasons. Selection of two body colors in durable lacquer—moleskin and gray.

EARLE & COOK CO.

Dependability and long life are essential elements of motor car satisfaction.

Whatever other characteristics a car may have, whatever refinements may be added must have their foundation upon these basic qualities.

The basic quality of the Ford has been demonstrated in the hands of over twelve million owners in all parts of the world. These owners have chosen Fords because they know that there is no substitute for what the Ford offers.

The Tudor sedan is a noteworthy example. It is a car of abundant comfort, of unlimited utility, ideally suited to family use, in town or country at all seasons. Selection of two body colors in durable lacquer—moleskin and gray.

THE thousands of miles of excess I transportation built into every Studebaker are again publicly attested on July 18th in newspapers throughout the United States. 817 Studebaker owners, whose present cars have gone over 100,000 miles, are listed.

You may never desire to drive your own car so great a distance, but the qualities which make such long life possible, insure for you the most dependable performance and economy for any period of use.

To pay less than a Studebaker costs is false economy; to pay more is needless extravagance.

THE SECRET

You see and feel and understand With me; the tuneful waters flow,

The way the drooping alders stand Agaze upon their mirrored selves-And all the robins and the elves

It is our Secret, how we see
Thus eye to eye, nor ever say
How fair the dream, how silently
All that is needless alips away.
(I am so gisd the robins sing,
And all the Earth is blossoming!)

And no one ever knows; my Friend The beauty fashioned of our thought God's beauty, that shall never end Nor pass away because unsought— This secret lowliness shall call

goes into battle

when this oil goes into your motor

EVERY minute you drive your car, an endless war is waged in your motor. Those two relentless allies, blinding heat and grinding friction, constantly threaten the vital motor-parts. Only a thin film of motor oil holds the fighting line and guards your motor from damage.

But far too often the film of ordinary motor-oil fails under the punishment. It quits under fire. Frequently there follows a burned out bearing, a seized piston, a scored cylinder-big repair bills.

Let the "film of protection" safeguard your motor

That is why each day new car owners are turning to Veedol, the motor oil that gives the "film of protection"-thin as tissue, smooth as silk, tough as steel-the fighting "film of protection" that safe-guards your motor from deadly heat and friction.

Stop at the familiar orange and black Veedol signs-they're signs of a good dealer Ask always for Veedol by name. Then you can be sure that every mile you drive, the Veedol "film of protection" is fighting for the safety of your motor

Veedal Motor Oil is made in 6 grades, including Veedal Forzal for Fords. Whatever car you drive, your Veedol dealer can supply you with the correct grade for your

MOONSHINE TOO STRONG DETECTIVES SAMPLED IT PROMPTLY WENT CRAZY

Muskogee, Okla., July 20.—Four persons were sho and wounded, two seriously, and eight others seriously clubbed by two Muskogee officers who early today be came crazed by liquor secured in raids, and ran amuck in faree hotels. Officer Paul Davis, Deputy Sheriff and Ves Cormack, City Detective, ran about the halls of the hotels, battering down doors and firing at the guests as they lay in bed. When their ammunition became exhausted they beat their victims with clubs and smashed win-dows and fixtures. Responding to a riot call fellow offihers were forced to shoot Davis several times to overnow er him and he is in a critical condition. Cormack was easily subdued and placed in jail.

A LITTLE Polish boy, without telling his parents changed his name the first day in a Canadian school. He had a fine Polish name, but he was in Canada, in a new world, and he wanted a name that would symbolize his great change.

European women, upon coming to Canada, quickly revolutionize the manner of things they buy for their tables and their homes. An authority has estimated that foreign-born women ask for goods by their advertised names within two weeks after they have begun housekeeping in Canada.

They are quick to sense that in the new world the good things are advertised, and that unknown goods in unknown stores are likely to be of unsatisfactory

As the European woman quickly learns, Canadian advertising is for the buyer's protection.

An advertised product bears a proud name It has a reputation to uphold.

ADVERTISE IN THE

Mrs. Walzalsky Mrs. Smith

A LITTLE Polish boy, without telling his parents. changed his name the first day in a Canadian school. He had a fine Polish name, but he was in Canada, in a new world, and he wanted a name that would symbolize his great change.

European women, upon coming to Canada, quickly revolutionize the manner of things they buy for their tables and their homes. An authority has estimated that foreign-born women ask for goods by their advertised names within two weeks after they have begun housekeeping in Canada.

They are quick to sense that in the new world the good things are advertised, and that unknown goods 13 in unknown stores are likely to be of unsatisfactory quality.

As the European woman quickly learns, Canadian advertising is for the buyer's protection.

An advertised product bears a proud name It has a reputation to uphold.

Nothing could be cooler or more comfortable than these Pretty Printed Crepe Dresses.

Stylishly made and of good quality crepe, these Dresses come in a host of lovely colors. Some are flared while others retain that straight simple cut that is so becom ing to many people. Crepe-de-Chine is used in trimming the sleeves and pockets or often making a tie collar or girdle. Others are trimmed at the neck with lace falling into a jabot effect. Fancy buttons are also used adorning the neck or sleeves. These Dresses are featured in floral dot or futuristic designs and may be had in shades of blue, carmine, green, fawn or black and white-

GENERAL CURRIE'S EX-BATMAN
Toronto, July 22.—Mayor Thomas Foster will propose
to the Toronto Board of Control that a fitting civic memorial be erected to A. R. Shee Butcher and Oliver Mardall,
both of Toronto, who sacrificed their lives in drowning
at Baisam Lake so that others may be saved. The Mayor
made this amnouncement this afternoon after he had expressed the city's sympathy to relatives of nine Toronto boys who were drowned when their war canoe capsized. It was stated that not much more could be done until the bodies had been recovered. Shea Butcher, who left the canoe to lighten the burden on it, was seriously wounded in the great war where he served as batman to Sir Arthur

ROYAL PARTY IS BRILLIANT
13,000 ATTEND BUCKINGHAM FETE
London, July 22.—King George and Queen Mary today
gave a Royal Party in the gardens of Buckingham Palace
to which 13,000 guests had been invited. The gathering
proved to be the largest and most representative of Royal parties since the Coronation itself. As virtually all of the guests invited came, the six acre gardens of the palace, set off by trees, shrubbery and small lakes, was the scene of one of the most brillaint functions in thehistory of

KIWANIS PIGNIC LAUNCH PASSED Frantic Search Continues For Bodies of Lost Youths Treacherous Lake is Combed

Fenelon Falls, Ont., July 22.—Under a sweltering sky County, and Provincial police officer Storey, of Lindsay, start-ed out again this morning in an endeavor to lectite the bodies cu out agam mis moyning in an endeavor to locate the hodies of eleven young lads, members of a camp conducted at Bal-sam Lake by the St. James Cathedral, Toronto, Branch of the Brotherhood of St. Andrew, who were drowned early yesterday, morning after their war canne capaized in deep water. Of the fifteen lads in the draft only four were saved, one of them, the Camp Adjutant, lying in Lindsay hospital in a ser-

ious condition.

Reports received here early today were to the effect that no bodies had yet been recovered following the tragedy which is one of the worst aquatic disasters in Ontario for some years,

Balsam Lake in some places is forty feet in depth and

Balsam Lake in some places is forty feet in depth and residents of the locality are apprehensive that some days may, shapes before all the bodies are found. Sorrowing relatives of the young campers began to arrive here and at villages in the vicinity of the lake and the pether with farmers and summer cottagers, assisted in the search. The Man In The Moon

By Margaret C. Lyaught.
Oh, the Man-in-the-Moon is a sailor-man bold,
A sailor-man old and wise;
And he steers his beautiful craft of gold
Through billowy cloudy skies.

He pilots his bark the long night three And glides between planet and such And he knows where the current runs swell and true. And just where the cloud-rocks are.

Yo-ho! for the Man-in-the-Moon so hold. He's a mariner old and wise Who pilots his precious bark of gold Through the blue and silver skies.

Ah! with Art, we could live thron eternity; for each moment new thing is created.

More Dependable Than Ever 🛂

Dodge Brothers, Inc., and their sub-sidiaries achieved third place in world production this Spring because they have been able—WITHOUT SACRIFICING FUNDAMENTALS—steadily to im-prove the smartness of their product. Owners and engineers know well that mechanically the car is sturdier than ever—cost of upkeep lower—and per-formance more dependable.

Refinements and lower prices have been Remements and lower prices have been made possible by spectacular increases in sales. Not by violating the basic treet of Dodge Brothers success: NEVER TO LOWER QUALITY IN A SINGLY DETAIL.

here so young never so pure unsettash and kind.

A year has passed the blow still great, God give us grace to love thee more and to meet her there.

Sadly mised by Grandma and Grandpa Taylor, Aunt Alice and Uncle Bill. STOLIKER—In loving memory of our dear daughter Hylda, who was sudden-ly called home on July 24th, 1925.

One year ago you left us Hylda And our hearts are filled with pain For we long to hear your laughter, And to see your smile again.

Bue we know that you are happy
In the Master's loving care,
And that no more pain or sorrow
Will ever be your share.

So we will be brave our darlin And pray to God each day. That when He calls us Home to Your loving smile may guide Sadly missed by mother, dadd and brothers.

INSPECT this truck. You will see a rugged, six-inch channel wisel frame swung low to insure height level with milk platforms and loading dexts. You will see heavy-leaved, semi-elliptic springs. You will see the powerful Chevrolet truck as to husby, over-size unit with spiral bevel driving geamenased in a one-piece, presumed the construction in Canada.

Note the big motor. Neither hills, sand, mud, nor sustained second gear work will tax its capacity—for it offers the super-power of valve-in-head design and the stamina that has made Chevrolet famous

Chevrolet has become the world's third largest truck builder because Chevrolet trucks are proving their economy on the sound basis of low first cost, low maintenance cost, and low depreciation. Decide on that basis—and you, too, will buy a Chevrolet. For the lighter loads the Chevrolet Commerci Chassis offers a 1,000-lb. capacity and typic Chevrolet quality with a shorter wheel bas

PEOPLE DEMAND MORE THAN TRANSPORTATION

Motor Car Must Provide Complete Comfort and Fine Performance.

Walter P. Chrysler Gives Opinion Regarding Pre-sent Buying Trend

That there is a distinct trend in motor car buying that promises rather spectacular developments in the industry is the opinion of Walter P. Chrysler, motor car manufacturer. According to Mr. Chrysler, people demand something more than simply

demand something more than simply transportation at a price; they de-mand in their cars all the excellen-cies, proportionately, that a higher price commands. Furthermore, he says, this demand is so insistent and so widespread that they are going to have what they want.

The fly family learns the CERMS—6,000,000 germs on a single fly, says a noted health officer. Protect your family with Filt. Filt spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use. Kills All Household Insects

Fit agray also destroys bed bugs, rosches and ants. It search out the cracks and crevices where they hide and breed, and a stroys insects and their eggs. Spray Fit on your garment Fit kills moths and their larva which eat holes. Extendi-tests showed that Flit spray did not stain the most delicat labrics.

Fit is the result of exhaustive resea, h by expert entomologists and chemists. It is harmless to mankind. Fit has replaced the old methods because it kills all the insects—and does it quickly. Get a Filt can and sprayer today.

Not often that you see dresses of this quality so moderately priced. These are thoroughly nice. Tiny pleats falling in groups, long box pleats, narrow v-necks and unbroken lines all help give a slender effect to full figures. The trimming is exquisite shirring, fine embroidery in self-tones and designs in silk braid, and there is just enough on each to give the frock a dressy look. A Word of Caution

RED BUS SERVICE

Port Credit, Ont. July 2, 1926;

Imperial 011 Limited, 56 Church Street, Toronto, Ont.

I take this opportunity of advising you that our fleet of eight motor busses, which operate between Port Credit and Toronto, have been using Marralube Motor Oil exclusively since this oil was first put on sale.

Each of these busses travels about 285 miles a day and estimate that our entire fleet has now run upwards of 136,000 les on Marvelube.

We have never before been able to obtain such mileage and satisfactory operation from our busses and we attribute same largely to the use of Marwelube Motor Oil.

We have had less carbon troubles and in fact are enjoying the greatest of satisfaction and we feel it is only fair to advise you of the marked success we have experienced.

Fishing you every success, we remain,

Yours very truly,

Highways contribute greatly to people's welfare and pleasure

These roads have cost \$180,000,000 of the pec-money. Many more millions will be required to them in repair and to renew them. This money come from those who use the roads.

You as a motority are invited to 'fake an interest in the highways. The are yours to use, not to abuse—the highways. The are yours to use, not to abuse—and to the control to detroy. Excessive speed grad away road surfaces. Drive moderately and you will help to protect the hoge investment which you and the other motorists have made in the good reads of your Province.

While confident that the majority of motorists heed this request for co-operation in preserving roads, the Government gives warning to the car that the speed laws are being rigidly enforced.

McLAUGHLI -BUICK

Four Vital Engine

Improvements To produce the silent power-flow in the 1927 McLaughlin-Buick, McLaughlin-Buick engineers have made four fundamental im-

ements in the structure of the famous McLaughlin-Buick Valve in Head engine, in-

McLaughlin-Buck. Valve-in-Head engine, in-tuding a Counter-Poised Crankhaft and a Torsion Balancer; new light-weight pistons; and then a Completely. Cushloned Engine, insulated and isolated by rubber mountings, fore and aft, from all metallic contact with the chasis.

An Engine Vibrationless Beyond Belief The McLaughlin Motor Car Company, Limited, today presents the 1927 McLaughlin-Buick, with an engine vibrationless beyond belief.

This achievement, we earnestly believe, will rank as one of the most important in all motor car history.

of the most important is all motor car history.

Our enginers, working in conjunction with the engineering staffs of General Motors Research Laboratories and General Motors Proving Ground have discorded the annoyance of Referentiation, to a point never before attained.

They have given McLaughlin-Builch major cars a new luxury of quietness at every speed, exceptional among all cars, no matter what their privale.

Never in all the twenty-two years of McLaughlin-Buick success has there been offered such convincing proof of engineering and manufacturing leadership.

McLaughlin-Buick offers you today a brilliant example of the quality of McLaughlin-Buick craftsmanship—

Confident that acquaintance with its performance and value will fix in mind the conviction that money can buy nothing finer-

Certain that you will discover, in this great new car, tertain that you will discover, in this great new car, further evidence of the deep meaning in the long-standing pledge: "When Better Automobiles are built, McLaughlin-Buick Will Build Them."

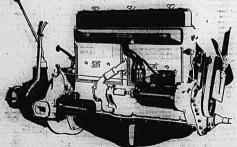

Other Vital Improvements

Another revolutionary improvement in the 1927 McLaughlin-Buick is the vacuum-cleaned crunkcase. Certhicase monitors, the vicious for engine efficiery, is now driven our other the vicious for engine efficiery, is now driven our clean. The crunk-case is densed and hept free of distinct by the McLaughlin-Buick Vaccous Ventilators, new device, operated by the air fair pert. The oil in the crunkcase of the 1927 McLaughlin-Buick need be changed only four times a pure! McLaughlin-Buick performance is now made more certain, more pleasant and more economical by thermostatic control in

the cooling system. Water circulation is prevented and the heat held in the engine, until the proper operating temperature

is reached.

Gear noise is removed by McLaughlin-Buick's new glass-tool transmission, which is quiet in all of its speeds. Further quiet man has been obtained by a new muffler design, and the contractable new or McLaughlin-Buick' histocher balmond wheels, mosther contribution to better driving. The princely beauty of the new Table boilins is in thorough keeping with the unusual and incomparable performance establishment of a straight of the seek and the contribution of the contribu

The Most Remarkable Fact of All—Value

This Greatest of all McLaughlin-Buicks is the Greatest of all McLaughlin-Buick values. McLaughlin-Buick volume has permitted engineering research and development on a scale far beyond the reach of most manufacturers.

Constant improvement has leveled one price barrier after another, until now you are offered, in this new McLaughlin-Buick, a car as fine as money can buy, at the price of cars of very ordinary quality.

This car will convince you, as no other car can, that money can buy nothing finer-no matter how much you may be able to spend!
